Interested in Discussing Teaching and Learning at the 2022 PSA Annual Meeting?

Teaching Symposium: “Better Teaching Through Science: Incorporating the scholarship of teaching and learning”

Join us from 10:30 – 12:00 on Thursday, July 14 to discuss the scholarship of teaching and using evidence to determine pedagogical changes in the classroom. Engagement in SOTL challenges scholars to ask questions about their teaching practices and share with a larger community of practice. Topic will include discussion on best practices in SOTL, how to implement a SOTL program, and how to use SOTL to improve teaching effectiveness.

Teaching Workshop: “Integrating the Scholarship of Teaching and Learning Into Your Classroom or Academic Program”

The workshop will be held from 1:00 – 3:00 on Thursday, July 14. The objective of the workshop is to provide participants with opportunities to discuss and integrate SOTL strategies into their own classroom or academic program. Interactions with the symposia speakers, in a round table format, will further facilitate the creation of active learning strategies to create student interest in exploring poultry science.

All are welcome to attend. We especially welcome graduate students and post-docs! This is a great opportunity to learn more about scholarly teaching and learning.
